Get Data Moving
Let NanoConnect do the heavy lifting for jobs, employees, and timesheets between SIMPRO and Assignar.

Technology
The NanoConnect platform uses serverless technology that can be scaled at a fractional cost, deployed anywhere and uses end to end encryption to protect your system credentials.

Support
Nanoputian provides in-depth integration knowledge and smooth implementation so your team can get value out of your system quicker.

Focus
Nanoputian makes your systems simply integrated while Assignar takes your construction operations to the next level.
